CISCO

COOK ALONG WITH CISCO

What a fun virtual cook along, Ellie and I hosted for CISCO. A small team with attendees mainly located in Belgium joined for a 2 hour cook along session with us. Since March 2020, they have been working from home and a team building activity around healthy and fun cooking was a great way to get people together.

DISHES :

SPRING ROLLS

Delicious vegan spring rolls - a yummy snack eaten to mark the arrival of spring in the Chinese history.

TOFU BULGOGI + RICE NOODLES SALAD

A refreshing tender rice noodle salad, with tofu and lots of crunchy peanuts.

MANGO TAPIOCA PEARLS

Rich coconut milk and small mango tapioca pearls that can be enjoyed cold or warm

Sylvie Lanier, CISCO

This course was very pleasant, the group learned to cook differently and discovered themselves in another framework on different notions. It is really pleasant and relaxing!
